A. Program Management Controls

In the Management Area, the Offeror should provide:

6. Are there additional costs not addressed that the City would incur if the Offeror were awarded the contract? If so, include those costs when comparing to the budget amount and the competition.

2.7 PROPOSAL PRESENTATION

Presentation is an important factor. Offerors should provide a highly professional product, which is complete, accurate, easily understood, and effectively presented.

3.2 RANKING

A. The order of ranking or importance in the evaluation shall be as follows:

First: Project Delivery / Approach

Second: Qualifications

Third: Price

B. Area Scoring

The score for each area will be determined by multiplying the sum of the criteria in each area by the area evaluation factor. The area evaluation factors are as

follows:

Project Delivery/Approach: .35

Qualifications: .35

Price: .30

C. Final/Overall Scoring

The final proposal score will be determined by adding the area scoring. The sum of the area scores will be the final/overall score.

3.3 SELECTION COMMITTEE

A selection committee will review all proposals. Through this process, the City will determine which proposals are acceptable or unacceptable. The City will notify, in writing, the Offerors whose proposals are deemed to be unacceptable. Those Offerors offering proposals deemed to be acceptable by the City will be evaluated and scored by the selection committee. This scoring will determine which Offerors are considered to be in the competitive range and may be the basis for an award decision without further steps.

If the selection committee elects not to award based upon evaluation scoring, it may engage in a forced elimination process. To inform this process, it may require oral presentations or interviews with the Offerors considered to be in the competitive range. If oral presentations or interviews are conducted, they may also be scored, or they may simply be considered as information supporting the forced elimination process. The selection committee may request revisions to the proposal from each of the Offerors at the conclusion of the interviews. The intent of the forced elimination process is to reach consensus. The decision will be based on all relevant factors, and based upon perception of best value. The final decision may or may not exactly reflect scoring ranking.

The City also reserves the right to request best and final offers from all Offerors at any point in the proposal evaluation process.

3.4 AWARD OF CONTRACT

It is anticipated that there will be negotiations or discussions with Offerors. However, the City reserves the right to award without negotiations or discussions. The City also reserves the right to award a contract not necessarily or merely to the Offeror with the most advantageous price. The City intends to award to the Offeror that demonstrates the best value to the City and the most substantiated ability to fulfill the requirements contained in this Request for Proposal. A contract prepared by the City will be finalized and/or negotiated with the successful Offeror. In the event a contract cannot be negotiated with the top ranked Offeror, the City may enter into negotiations with the second highest ranked Offeror, or the City may decide to call for new proposals. Immediately after the notice of award, the

successful Offeror will begin planning in conjunction with the City of Colorado Springs staff (to be designated by the City) to ensure fulfillment of all its obligations. The successful Offeror may be expected to attend regular meetings as required by the City to assist in the preparation for startup.

vi. Contractor files a petition commencing a voluntary case under the U.S. Bankruptcy Code, or for liquidation, reorganization, or an arrangement pursuant to any other U.S. or state bankruptcy Laws, or shall be adjudicated a debtor or be declared bankrupt or insolvent under the U.S. Bankruptcy Code, or any other federal or state laws relating to bankruptcy, insolvency, winding-up, or adjustment of debts, or makes a general assignment for the benefit of creditors, or admits in writing its inability to pay its debts generally as they become due, or if a petition commencing an involuntary case under the U.S. Bankruptcy Code or an answer proposing the adjudication of Contractor as a debtor or bankrupt or proposing its liquidation or reorganization pursuant to the Bankruptcy Code or any other U.S. federal or state bankruptcy laws is filed in any court and Contractor consents to or acquiesces in the filing of that pleading or the petition or answer is not discharged or denied within sixty (60) Calendar Days after it is filed.

vii. A custodian, receiver, trustee or liquidator of Contractor, all or substantially all of the assets or business of Contractor, or of Contractor's interest in the Work or the Contract, is appointed in any proceeding brought against Contractor and not discharged within sixty (60) Calendar Days after that appointment, or if Contractor shall consent to or acquiesces in that appointment.

viii. Contractor fails to commence correction of defective work or fails to correct defective work within a reasonable period of time after written notice.

If one or more of the events identified in Paragraphs i-viii above occur, City may give Contractor written notice of the event and direct the event be cured. Any such Notice to Cure will provide Contractor a minimum of ten (10) calendar days to prepare and submit to the Project Manager a plan to correct the Event of Default. If such plan to correct the Event of Default is not submitted to the Project Manager within ten (10) days after the date of the written notice or such plan is unacceptable to the City, the City may, give Contractor (and the Surety, if any) written notice that Contractor's services are being terminated for cause. Upon delivery of the termination notice, City may terminate the services of Contractor in whole or in part, exclude Contractor from the site, and take possession of the work and of all Contractor's tools, appliances, equipment, and machinery at the project site, and use the same to the full extent they could be used by Contractor (without liability to Contractor for trespass or conversion), incorporate in the work all materials and equipment stored at the site or for which City has paid Contractor but which are stored elsewhere, and finish the work as City may deem expedient. In such case, Contractor shall not be entitled to receive any further payment until Certificate of Completion of the work. In the event City terminates this Contract for Cause and the cost of completing the work exceeds the unpaid balance of the Contract price, Contractor shall pay City for any costs of completion which exceed the Contract

price when combined with all amounts previously paid to Contractor. When exercising any rights or remedies under this paragraph City shall not be required to obtain the lowest price for the work performed. Should the cost of such completion, including all proper charges, be less than the original Contract price, the amount so saved shall accrue to the City. Neither the City nor any officer, agent or employee of the City shall be in any way liable or accountable to the Contractor or the Surety for the method by which the completion of the said work, or any portion thereof, may be accomplished or for the price paid.

Where Contractor's services have been so terminated by City, the termination will not affect any rights or remedies of City against Contractor or Surety then existing or which may thereafter accrue. Any retention or payment of moneys due Contractor by City will not release Contractor from liability.

C. Termination Notice. Upon receipt of a termination notice, whether for convenience or cause, the Contractor shall immediately: discontinue all services affected (unless the notice directs otherwise), and deliver to the City all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this Contract, whether completed or in process.

D. Removal of Equipment. Except as provided above, in the case of termination of this Contract before completion from any cause whatever, the Contractor, if notified to do so by the City, shall promptly remove any part or all of Contractor's equipment and supplies from the property of the City, failing which the City shall have the right to remove such equipment and supplies at the expense of the Contractor.

The City's authorized representatives shall have access during reasonable hours to all records, which are deemed appropriate to auditing billing statements, reports, performance indices, and all other related documentation. The Contractor agrees that it will keep and preserve for at least seven years all documents related to the Contract which are routinely prepared, collected or compiled by the Contractor during the performance of this Contract.

The Contractor certifies in accord with Section 8-17.5-102(1) C.R.S. that, on the date the Contractor signs this Contract, the Contractor does not knowingly employ or Contract with an illegal alien who will perform work under this Contract and that the Contractor shall participate in the e-verify program or Colorado Department of Labor and Employment program in order to confirm the employment eligibility of all employees who are newly hired for employment or to perform work under this Contract. The Contractor is expressly prohibited from using the e-verify program or Colorado Department of Labor and Employment program procedures to undertake pre-employment screening of job applicants while this Contract and any services under this Contract are being performed. If the Contractor obtains actual knowledge that a subcontractor performing work under this Contract for services knowingly employs or contracts with an illegal alien, the Contractor shall notify the subcontractor and the City within three days that the Contractor has actual knowledge that the subcontractor is employing or contracting with an illegal alien, and terminate the subcontract with the subcontractor if within three days of receiving the notice the subcontractor does not stop employing or contracting with the illegal alien; except that the Contractor shall not terminate the Contract with the subcontractor if during the three days the subcontractor provides information to establish that the subcontractor has not knowingly employed or contracted with an illegal alien. If the Contractor violates or fails to comply with any provision of C.R.S. 8-17.5-101 et seq, the City may terminate this Contract for breach of contract. If this Contract is so terminated, the Contractor shall be liable for any actual and consequential damages to the City.

In accord with section 24-34-402, C.R.S., the Contractor will not discriminate against any employee or applicant for employment because of disability, race, creed, color, sexual orientation, religion, age, national origin, or ancestry. But, with regard to a disability, it is not a discriminatory or an unfair employment practice for an employer to take into consideration disability if there is no reasonable accommodation that the employer can make with regard to the disability, the disability actually disqualifies the person from the job, and the disability has a significant impact on the job. The Contractor will take affirmative steps to ensure that applicants are employed, and that employees are treated during employment without regard to their disability, race, creed, color, sexual orientation, religion, age, national origin, or ancestry. Such actions shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training; including apprenticeship.

 - iii. If, within thirty (30) calendar days after such meeting, the Parties have not succeeded in negotiating a resolution of the dispute, they agree to submit

- the dispute to non-binding mediation and to bear equally the costs of the mediation.

The City of Colorado Springs and the Contractor agree to notify each other in a timely manner of any claim, dispute, or cause of action arising from or related to this Contract, and to negotiate in good faith to resolve any such claim, dispute, or cause of action. To the extent that such negotiations fail, the City of Colorado Springs and the Contractor agree that any lawsuit or cause of action that arises from or is related to this Contract shall be filed with and litigated only by the Colorado District Court for El Paso County, CO.

EXHIBIT 5 STATEMENT OF WORK FOR ADA ELIGIBILITY CONSULTANT AND TRAVEL TRAINING

Introduction

The successful Proposer selected as the Contractor under this Scope of Work will be responsible for two (2) primary functions as outlined herein, including (1) those services associated with the ADA Complementary Paratransit's Eligibility Program and (2) those services associated with the Travel Training Program.

The Proposer will submit a separate cost proposal for the two (2) primary functions of the contract and the alternative function.

While the terms, "Contractor" and "contract" are used extensively throughout this Scope of Work, this by no means creates a contractual relationship between the Proposer and the City.

The Contractor will provide safe, timely, professional, and reliable services as outlined in this Scope of Work.

The Contractor will work constructively with the City's Authorized Representative in making program improvements during the course of the contract.

The Contractor will coordinate, manage, and control all necessary program activities, which will include providing appropriate staffing numbers, a proper training program, developing administrative procedures, and developing methods to improve effectiveness and efficiency.

- Monthly start-up or transition costs should be priced separately in the cost proposal.

SECTION 4: CONTRACT CONDITIONS

The contract will be awarded for one (1) base year. The City reserves the right to extend the contract for up to four (4) consecutive one (1) year periods subject to the mutual agreement of the City and the Contractor and in accordance with Federal Transit Administration rules and regulations.

SECTION 5: TRANSITION TO SUBSEQUENT CONTRACTOR

If a Proposer other than the incumbent Contractor is chosen to provide the service outlined in this Scope of Work, the incumbent Contractor will cooperate with and participate in ensuring a smooth transition. During the transition phase, City staff will conduct several meetings with the incumbent Contractor and the new Contractor to discuss policies and procedures, exchange customer information, and to set expectations. As required by the City, the incumbent Contractor will make pertinent records accessible to both the City and the new Contractor within three (3) business days of City's request.

SECTION 6: TERMS OF PAYMENT

Start-Up or Transition Rate: The Contractor will be compensated for start-up or transition costs in accordance with the negotiated contract pricing terms

Monthly Fixed Rate: The Contractor shall be paid a monthly fixed rate for each calendar month of service, per the contract. This fixed monthly rate shall be in consideration for the cost of performing those services set forth in *Section 8: ADA Complementary*

Paratransit Administrative Function of this Scope of Work.

Evaluation Rate: The Contractor shall be paid at a “per evaluation” rate for each applicant who completes the evaluation process as described throughout this Scope of Work. This rate will only include those costs associated with client evaluations as described throughout this scope. The City estimates that approximately 450 evaluations will occur per year. If throughout the course of an entire contract year this amount increases or decreases by 25% or more, the City and the Contractor may agree to renegotiate the evaluation rate. The Evaluation Rate will exclude those costs associated with the administrative function.

Travel Trainer Rate: The Contractor shall be paid via an hourly rate for travel training purposes as described in *Section 11: Travel Training*. At no time is the Contractor allowed to invoice the City more than 20 hours for one (1) trainee without the permission of the City’s Authorized Representative. Prior to monthly invoice submission, the City shall provide the Contractor with pertinent data regarding the completion of an invoice. Data related to liquidated damages and incentives shall be provided to the Contractor within three (3) business days following the end of the month. If additional time is needed by the City to make a determination on liquidated damages or incentives, additional time may be provided to the Contractor to submit the monthly invoice per the Contract. If there are disputes, the Contractor has 30 days to remedy by providing evidence to the contrary. If the decision is in favor of the Contractor, the City shall rectify the situation by reducing or eliminating liquidated damages. Changes to liquidated damages will not be considered after 60 days of any performance period.

SECTION 7: FACILITIES AND EQUIPMENT

The City shall be responsible for providing the Contractor the following facilities and equipment. Upon termination of this contract, the Contractor will be required to return the facilities and equipment to their original working order. If the City determines that damage has occurred beyond reasonable wear and tear, the amount of damages will be subtracted from the final invoice.

The Contractor shall be allowed access to the Eligibility Office located at 1015 Transit Drive, Colorado Springs, CO 80903 during normal office hours, defined as 8:00 A.M. to 5:00 P.M., Monday through Friday. If the Contractor needs to access the Eligibility Office outside of normal office hours, it must be approved by the City’s Authorized Representative. The Contractor is not responsible for utilities or cleaning costs.

The Contract shall be supplied with the following equipment:

Computer: The City will provide one (1) computer work station for the execution of this Scope of Work. The Contractor is only to utilize this computer for those

activities described in this Scope of Work. The Contractor is not allowed to install any additional application onto the computer without the permission of the City.

Metro Mobility Identification Card Printer: The City shall provide the Contractor one (1) ID Card Printer as well as the printer ribbon and ID cards that are utilized. It is the Contractor's responsibility to inform the City when they have less than a two (2) months' supply of printer ribbon and ID cards. The City shall be responsible for ordering these supplies.

Phone: The City will provide phone capability via CISCO to the Contractor. The Contractor shall be provided one (1) phone for the purpose of answering and placing calls. This phone line may be recorded by the City. If this line is recorded, recordings shall be made available to the Contractor upon request.

High Speed Internet Access: The Contractor shall be provided high speed internet access at no cost.

The City shall provide all necessary resources to successfully accomplish this Scope of Work. The City will supply the Contractor with the following applications:

Trapeze PASS Version 15 or greater: The Contractor is responsible for updating client eligibility records in this program in compliance with this Scope of Work.

Jolly: The Contractor is responsible for inputting information into this database and printing photo identification cards for eligible clients.

If the Contractor believes that additional resources are needed that exceed those items discussed throughout this Scope of Work, then the Contractor will include in its proposal a description of additional resources that are needed and why they are needed. The Contractor is solely responsible for the maintenance of all Contractor-owned equipment. Additional hardware or software must be approved by Transit IT (a division of the City) in writing and prior to any installation.

SECTION 8: STAFFING

The Contractor will be responsible for all recruitment, screening, testing, selection, training, scheduling, supervision, discipline, termination, and all other functions related to personnel required to perform Contractor's personnel obligations.

The Contractor will provide a sufficient number of employees with sufficient training in order to ensure the effective operation of the service at all times. It is highly recommended that Contractor staff be cross-trained in multiple roles to cover potential staff shortages. The Contractor's employees will be competent and qualified to provide all related services, in accordance with the requirements set forth in this Scope of Work and all its Attachments

herein. The Contractor will ensure that all of its employees meet all applicable qualifications established by federal, state, and local laws and regulations.

The Contractor is required to have a team of qualified staff who should, collectively, be able to demonstrate knowledge and abilities including but not limited to:

- Sensitivity to persons with disabilities, including physical, cognitive and psychiatric disabilities.

- Ability to assess the interaction of an individual's disabilities with the various components of a transit system required for successful access and utilization of fixed-route services, fare boxes, timetables and route descriptions.
- Knowledge of ADA paratransit eligibility criteria and service requirements.
- Familiarity with fixed-route service.
- Ability to communicate effectively in person and in writing.

Right to Require Removal: The City reserves the right to require the removal from involvement with the provision of services any Contractor employee whose performance, in the City's sole determination, is unsatisfactory or unacceptable. In the event such a request is made by the City, the Contractor shall be notified in writing by the City and the Contractor will immediately remove that employee from any and all performance of duties or obligations under this Scope of Work upon receipt of the notice.

SECTION 9: ADA COMPLEMENTARY PARATRANSIT ELIGIBILITY ADMINISTRATIVEFUNCTION

The Contractor will provide adequate staff to successfully accomplish those tasks in this Contract generally associated with that of an Administrative Assistant.

The Administrative Assistant will be the initial contact person for information regarding Metro Mobility. The Administrative Assistant is required to be on site at 1015 Transit Drive and available by telephone and email for a predetermined uninterrupted, four (4) hour period per weekday. During this time the Administrative Assistant will answer live phone calls, process eligibility applications, return customer messages, and complete other tasks associated with this Scope of Work. The time period shall be set prior to each contract year. If the Contractor or City wishes to change this time period during the contract year, such request must be submitted in writing and agreed upon by the City.

The tasks that are generally associated with the Administrative Assistant are as follows. This list is by no means exhaustive, and the Administrative Assistant will be required to accomplish other tasks as they relate to this Scope of Work.

- Answer questions about the ADA Paratransit Eligibility process and assist applicants in the completion of the Application Form. This may include assisting applicants in the completion of the application by providing good customer service

and reasonable modifications where needed, in compliance with ADA requirements. A copy of the application may be found in Schedule B.

- If an applicant requires an interpreter for the appointment, the Administrative Assistant will immediately inform the City's Authorized Representative. It will be the City's responsibility to secure a qualified interpreter, if deemed necessary.
- Once an application is completed and submitted to the City, the Administrative Assistant will attempt to schedule an eligibility appointment with the applicant within three (3) business days.
- The Administrative Assistant will attempt to reach applicants no less than three (3) times at varying times of the day. If an applicant is non-responsive, then the application will be placed in "self-denial" status. Self-denials are to be kept in a file for three (3) months, after which time they are to be destroyed.
- The Contractor will make every attempt to ensure that the eligibility appointment will occur no later than the following week, unless otherwise requested by the applicant. If the applicant requests a later appointment, such request must be recorded on their application materials.
- For those individuals who are already eligible for Metro Mobility services, the Administrative Assistant is responsible for mailing out recertification applications no less than 60 days in advance of an individual's expiration date.
- After a determination of eligibility has been made for an individual (*See Section 10: Determining Eligibility for additional information*), the Administrative Assistant will input the applicant's information into the City's Trapeze software, within 24 hours of the determination. The Contractor will allow no more than 21 calendar days to elapse from the time a completed application is received until a final determination is made and entered into Trapeze. Exceptions will be made for those applicants that request additional time. If the applicant wishes to go longer than the 21 day window, such request will be documented on their application materials.
- The Administrative Assistant will offer a free ride on Metro Mobility to the eligibility appointment and will coordinate with the ADA Paratransit Services Contractor in the booking of the ride. On the day prior to the ride, the Administrative Assistant will contact the applicant to remind them of their ride and appointment time.
- The Administrative Assistant will be required to maintain hard copies of applications, scan and electronically file all application and eligibility-related materials, and update client information in the Trapeze application.
- At the request of the City or an eligible client, the Administrative Assistance will forward appropriate paperwork to other ADA paratransit providers.
- No less than once during any 12 month period the Administrative Assistant will destroy inactive participant physical files. Inactive participants include those whose eligibility expired three (3) years or more prior to the date of the purge. Electronic files will be saved and not purged. Prior to the purge, the Contractor will provide the City's Authorized Representative a list of file names that are to be destroyed. This list must be approved prior to the destruction of the files.
- The Administrative Assistant will keep an "Eligibility Log" that details the following:
 - Dates and times that applicants are scheduled for an evaluation
 - The number of applications that were first time certifications, re-certifications, and denials.

- The number of conditional, unconditional, and temporary certifications.
- The form of transportation that the applicant used to get to the appointment.
- Those applicants who are eligible and interested in travel training.
- Length of eligibility.
- Establish a time for a face-to-face interview with the applicant to review their application for services.

SECTION 10: DETERMINING ELIGIBILITY

The successful Proposer is responsible for determining eligibility for the City's ADA Complementary Paratransit program. While a disability is required to be certified for Metro Mobility, disability alone does not qualify an individual. Therefore, the successful Proposer will demonstrate an ability to determine whether or not an individual is eligible. Eligibility falls into the following three (3) categories:

Category 1: This includes individuals with mental or visual impairments who, as a result are unable to utilize the fix-route system. This eligibility category includes people who cannot board, ride, or disembark from accessible vehicles without the assistance of another individual.

Category 2: This category applies to individuals who could use accessible fixed-route transportation, but accessible transportation is not being used at the time or on the route(s) the persons would travel. This concept is route based, not system based. It is important to note that the City's fixed-route bus fleet is fully accessible. For those bus stops that are not accessible to individuals with disabilities, a reasonable modification may be made to allow these individuals the ability to safely disembark at an accessible location. Architectural barriers not under the control of the City and environmental barriers (e.g., distance, terrain, weather) do not, standing alone, form a basis for eligibility under this paragraph.

Category 3: This category includes individuals who have a specific impairment-related condition which prevents them from getting to or from a bus stop. As noted in ADA legislation, this is intended to be a "very narrow exception" to the general rule that difficulty in traveling to or from boarding or disembarking locations is not a basis for eligibility. Examples of generally accepted conditions include chronic fatigue, blindness, cognitive disabilities, and temperature sensitivity. This list is not exhaustive.

Once an individual has been determined eligible for paratransit under one (1) or more of the eligibility categories, a determination will be made as to whether the individual's eligibility is unconditional, conditional, or temporary.

Unconditional: An individual's eligibility is determined to be unconditional when their disability necessitates paratransit services for most, if not all of their travel.

Conditional: An individual's eligibility is determined to be conditional when it is apparent that their disability prevents their use of fixed-route service under certain circumstances. The Contractor is responsible for documenting these

circumstances and entering these into the client file in Trapeze.

Temporary: An individual's eligibility is determined to be temporary if the individual's disability status is expected for a finite period of time. Any certification that is for less than three (3) years is considered temporary. The Contractor must provide adequate reasoning as to why an individual's certification is temporary. In order to receive temporary certification, the individual must meet at least one (1) of the three (3) eligibility criteria, but would only do so for a limited period of time. In granting temporary eligibility to such a person, the entity will establish an expiration date for eligibility consistent with the expected end date of the period for which the disability may be expected.

The person(s) conducting functional and physical assessments/evaluations, hereby referred to as the "Eligibility Specialist" must be experienced and/or formally trained in these types of assessments or similar assessments and have at least three (3) years' experience working with individuals with disabilities. Some examples of acceptable background and experience include: Occupational and Physical Therapists, Kinesiologists, Orientation and Mobility Specialists, and others as approved by the City.

The Eligibility Specialist is responsible for the following. This list is by no means exhaustive and additional tasks may be required:

- Conducting one-on-one interview assessments with the individual applying for services. The individual is allowed to be accompanied by a personal care attendant if they so choose.
- Complete the Functional Assessment form. An example of this form may be found in Schedule C.
- For those individuals determined to be eligible, the Eligibility Specialist will provide the individual with an eligibility letter and a printed photo ID. The City shall provide all hardware and software associated with ID production. The eligibility letter is to be completed by the Eligibility Specialist upon conclusion of an assessment. This letter will explain any conditions placed upon their service, etc. An example of this letter may be found in Schedule D. A copy of this letter will be provided to the applicant at the conclusion of the assessment.
- For those individuals that are denied eligibility, the Eligibility Specialist will provide the individual with a denial letter. This letter is to be completed by the Eligibility Specialist and will provide the individual clear reasoning as to why they have been denied. An example of this letter may be found in Schedule E.
- A copy of the Guide-to-Ride will be provided to the individual. The City will supply the Contractor with the Guide-to-Ride.

The entire process for determining eligibility from the time a completed application is received by the City to the time an eligibility determination is made will take no more than 21 calendar days, unless otherwise requested by the applicant. From time to time, extenuating circumstances may arise beyond the control of the Contractor that do not allow for the completion of the process within the 21 day period. In such cases,

the Contractor may request additional time in writing to the City's Authorized Representative, who will determine whether or not the circumstances allow for an exception.

Field Evaluations: From time to time, the Contractor may be required to conduct a field evaluation to determine eligibility for an individual. These field evaluations will occur at a City facility. The primary purpose behind a field evaluation is to ascertain whether or not an individual is capable of utilizing the fixed-route service some or all of the time. Field evaluations may include, but are not limited to: utilization of traffic signals, navigating the environment, utilizing a fare box, etc.

Presently, except under extenuating circumstances, the City does not generally require a field evaluation. The City is considering changes to how field evaluations are conducting and at a future date, may require that some or all individuals undergo a field evaluation. If this policy changes in the future and the Contractor can reasonably show that the evaluation takes added time, the City and Contractor may agree to renegotiate the Evaluation Rate.

SECTION 11: ADMINISTRATIVE REVIEW AND APPEALS

The ADA requires an administrative appeals process through which an individual who is denied or given a conditional or temporary eligibility may appeal the decision. An Appeal must be filed within 60 days of the initial decision. A copy of the Appeals Process may be found in Schedule F.

The City adheres to the following process: The City will review the application for appeal and within seven (7) days of receiving this application and will contact the individual to discuss the appeal. The City will decide whether or not to uphold the decision of the Eligibility Specialist. If the City upholds the decision of the Eligibility Specialist, then the individual may proceed in appealing the ADA Certification Appeals Committee, which is comprised of individual with experience in the ADA. At any point during the appeals process, the City may require the participation of the Eligibility Specialist to explain their reasoning as to why an individual was denied or given conditional or temporary status.

SECTION 12: TRAVEL TRAINING

The City offers the opportunity for applicants approved for ADA paratransit service who are interested in riding the fixed-route bus system and qualify for ADA Complementary Paratransit Services to utilize the City's Travel Training program. The Contractor will be responsible for assessing whether an individual is a good candidate for the program as well as providing the travel training.

Travel Training personnel are required to have public transportation experience and an ability to teach use of the public transit system to others. Individuals utilizing the Travel Training program will come from a variety of backgrounds and disability types. The Travel Trainer will be required to provide training to individuals with developmental, physical, and cognitive disabilities. Individuals may also use a variety of mobility aids and instruments

to assist them in utilizing the transit system. As such, Contractor personnel will be responsible for having a basic understanding of how these various mobility aids and instruments assist the individual. Some examples of these instruments include the white cane; wheelchairs, both electric and manual; walkers, oxygen tanks; etc. In general, the Travel Trainer is not required to provide assistance in the use of these devices or any support that would endanger the individual or the Travel Trainer.

Travel Training is a one-on-one activity, which allows for the development of a trusting relationship between the trainee and the Travel Trainer. Many trainees may be apprehensive at first, so it is important that the Travel Trainer have the ability to foster a trusting relationship. The Travel Trainer will monitor and adjust lessons as needed to adjust to the trainee's skill level. The Travel Trainer is responsible for determining the level of effort needed for aspects of the training depending on the trainee's needs. If a trainer believes that a trainee would benefit from multiple trainees training at the same time, group training may be possible, but may only be done so at the permission of the City's Authorized Representative. In order to be effective, the Travel Trainer will utilize those routes and times that the trainee would use the service. The Travel Trainer will work with the trainee to reflect daily scenarios that the trainee may come across. Some examples of this include how to adjust for a missed transfer or how to modify a trip if a certain route is not available at a given time, whether due to service interruptions or time of day.

The Administrative Assistant and the Eligibility Specialist will coordinate to determine which applicants may benefit from travel training. A list of potential trainees will be provided to the Travel Trainer. The Travel Trainer will reach out to the individual to confirm whether or not they are a good candidate for travel training. If an individual is selected for travel training, the Contractor will inform the City's Authorized Representative and respond to any additional inquiries they may have. If it is determined that they are, the Travel Trainer will set up a time for an in-person interview with the individual. During this interview the Travel Trainer will determine the following:

- Determine the primary destinations the individual wishes to use the fixed-route bus service for.
- The time(s) of day would they most likely utilize the service.
- Any concerns with using the service.
- Establish the ability levels of the individual and what impact, if any, this may have on their use of the fixed-route service.
- Answer any questions the individual may have with regards to the travel training program or the fixed-route system.

Following the interview, the Travel Trainer and the trainee will schedule training sessions. In general, training sessions begin at a mutually agreed upon origin, typically associated with the trainee's residence or workplace. The Travel Trainer will model the basic skills in any areas where the trainee lacks competency or confidence.

The primary purpose of the Travel Trainer is to accompany the trainee on Mountain Metropolitan Transit in order to teach them how to use the service. The trainee is allowed

to choose destinations to which they will frequently be riding and become familiar with the bus procedures. If the trainee does not have a specific destination they wish to travel to, the Travel Trainer will select various destinations that utilize several different bus routes. The Travel Trainer teaches the trainee many techniques to riding the fixed-route transit system and will provide an evaluation after each training session. An example of this evaluation may be found in Schedule G. The trainee's ability to navigate the bus system is rated in a series of different ways. Trainees must be able to locate the bus stop, identify the correct bus number, pay their fare, show an ability to recognize landmarks, and signal the driver to pull over at the appropriate time. The Travel Trainer must evaluate the trainee's ability to interact with others in a public situation. This includes waiting for the bus in an appropriate manner, locating and taking their seat, demonstrating appropriate behavior while on the bus, and asking for help if assistance is needed. All of these skills are essential to successfully riding Mountain Metropolitan Transit.

As the trainee becomes more familiar with the Mountain Metropolitan Transit System, the trainer will start to do less instructing and "fade" into the background. For example, the Travel Trainer may first sit one seat behind the trainee on the bus, moving farther back with more training sessions. This information will be included in the evaluation form.

When a trainee can perform all skills properly and efficiently on the fixed-route transit system, the Contractor must evaluate the trainee in an exit survey, which will determine if a trainee is ready to safely and efficiently ride Mountain Metropolitan Transit independently. Competency needs to be demonstrated in all areas.

A trainee may be dismissed from travel training under the following circumstances, but not limited to, with the approval of the City's Authorized Representative.

- A trainee is no longer responding to outreach conducted by the Contractor. At a minimum, the Contractor will attempt to contact the individual no less than three (3) times via phone call or email over a two (2) week period at different times of the day. The Contractor will record the dates and times that these communications were attempted.
- The trainee moves to or lives more than three-quarters of a mile from a bus stop or all of their destinations are more than three-quarters of a mile from the bus stop. If the Contractor and the individual agree that they are both willing to walk further to and/or from a bus stop, they may do so with the approval of the City's Authorized Representative.
- The trainee's ability level is such that completion of the travel training program is improbable.
- Physical barriers such as a lack of sidewalks or safety-related issues exist that put the Travel Trainer or the trainee in a dangerous situation.
- Trainee behavioral issues.

At a minimum, the Contractor will document the following information regarding trainees. The Contractor is encouraged to include additional information.

- The trainee's contact information
- The date and time of the initial interview
- The dates and times of all training sessions.
- A synopsis of each session with the trainee.
- Any concerns that may impact the trainee's ability to utilize the transit system.

The City expects there to be up to 12 travel trainees per year. If there is a need for additional trainees, the Contractor will submit to the City in writing of the need to provide training to additional trainees. The City Authorized Representative will determine if additional whether or not to allow for trainees beyond 12.

The total time per trainee including the initial interview, training sessions, and the exit interview is estimated to take approximately 12-15 hours. Some trainees may take less time and some may take longer. In the event that a trainee requires more than 20 hours, the Contractor will provide this information to the City's Authorized Representative who will determine if additional training is required.

SECTION 13: ADA SECRET RIDER (ALTERNATIVE)

The City is assessing whether or not to develop an ADA Secret Rider program. This program may or may not be a part of the ADA Eligibility Program. The following is what the City is considering. This is by no means an exhaustive approach to the program. Proposers are encouraged to submit their recommendations for such a program. Proposers will provide a cost breakdown for the development and administration of such a program.

The City recognizes that it is important to have regular oversight of the services it provides, particularly those services that are utilized by individuals with disabilities. The Contractor may oversee an ADA Secret Rider Program. Elements of this program may include, but are not limited to the following:

- The Secret Rider will board a fixed-route bus to assess how peoples with disabilities are treated. The City will instruct the Contractor on those specific activities that the Contractor will need to observe. These activities will include, but are not limited to, reviewing and documenting any ADA concerns and how the customer service experience is.
- The Secret Rider will focus on how the driver interacts with the disabled population. Things to look for may include, but are not limited to the following:
 - Is the driver respectful?
 - For an individual with a wheelchair does the driver offer to secure their device? Do they offer the shoulder belt?
 - Does the driver provide any assistance if requested, etc.

The City will work with the Contractor at a later date to develop additional topic areas.

- Contractors are encouraged, but not required, to utilize a Secret Rider who has a

disability.

- The Secret Rider will make every attempt to blend into the general public while riding and not draw attention to themselves. The City will provide the Contractor with bus tickets.
- The Contractor may have a rotation of different Secret Riders who utilize the service. If multiple individuals are used to conduct these activities, the Contractor will be responsible for training each individual on what is expected.

Each Secret Rider must have public transit experience, as well as the knowledge of rules and regulations or services to be provided under ADA.

The Secret Rider program allows for services provided to be monitored discreetly. The City may provide the Contractor the list of routes and topic areas the City wishes to be documented. The route and topic areas may change between reviews; therefore, it is critical that the City and the Contractor collaborate on how to go about reviewing the system.

The Contractor may be required to develop spreadsheets and reports regarding the information that is received in the field. The City shall provide to the Contractor guidelines for the Contractor to follow in the creation of such reports or spreadsheets. While the City will work with the Contractor in the development of such reports and spreadsheets, the Contractor may be required to develop their own reports and spreadsheets devoid of assistance from the City, if requested.

The Contractor is encouraged to coordinate with people with disabilities in the community to assist in the Secret Rider program. The Secret Rider may accompany a rider with a disability in order to observe companion and PCA regulations. The Secret Rider will observe the transit system and evaluate by writing comments and rating a series of expectations listed in the assessment. After each Secret Rider session, an assessment will be completed.

This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

It requires the Comptroller General of the United States, in the absence of satisfactory proof of the necessity for foreign-flag air transportation, to disallow expenditures from funds, appropriated or otherwise established for the account of the United States, for international air transportation secured aboard a foreign-flag air carrier if a U.S.-flag air carrier is available to provide such services.

c) If available, the Contractor, in performing work under this contract, shall use U.S.-flag carriers for international air transportation of personnel (and their personal effects) or property.

d) In the event that the Contractor selects a carrier other than a U.S.-flag air carrier for international air transportation, the Contractor shall include a statement on vouchers involving such transportation essentially as follows:

e) Contractor shall include the substance of this clause, including this paragraph (e), in each subcontract or purchase under this contract that may involve international air transportation.

INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION (FTA) TERMS

Incorporation of Federal Transit Administration (FTA) Terms - The provisions within include, in part, certain Standard Terms and Conditions required by DOT, whether or not expressly set forth in the preceding contract provisions. All contractual provisions required by DOT, as set forth in the current FTA Circular 4220 are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. The Contractor shall not perform any act, fail to perform any act, or refuse to comply with any request which would cause a violation of the FTA terms and conditions.

NO GOVERNMENT OBLIGATION TO THIRD PARTIES

The Agency and Contractor acknowledge and agree that, notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, absent the express written consent by the Federal Government, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to the Agency, Contractor or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract. The Contractor agrees to include the above clause in each subcontract financed in whole or in part with Federal assistance provided by the FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

NOTIFICATION TO FTA

If a current or prospective legal matter that may affect the Federal Government emerges, the Recipient must promptly notify the FTA Chief Counsel and FTA Regional Counsel for the Region in which the Recipient is located. The Recipient must include a similar notification requirement in its Third Party Agreements and must require each Third Party Participant to include an equivalent provision in its sub agreements at every tier, for any agreement that is a "covered transaction" according to 2 C.F.R. §§ 180.220 and 1200.220.

(1) The types of legal matters that require notification include, but are not limited to, a major dispute, breach, default, litigation, or naming the Federal Government as a party to litigation or a legal disagreement in any forum for any reason.

(2) Matters that may affect the Federal Government include, but are not limited to, the Federal Government's interests in the Award, the accompanying Underlying Agreement, and any Amendments thereto, or the Federal Government's administration or enforcement of federal laws, regulations, and requirements.

(3) The Recipient must promptly notify the U.S. DOT Inspector General in addition to the FTA Chief Counsel or Regional Counsel for the Region in which the Recipient is located, if the Recipient has knowledge of potential fraud, waste, or abuse occurring on a Project receiving assistance from FTA. The notification provision applies if a person has or may have submitted a false claim under the False Claims Act, 31 U.S.C. § 3729 et seq., or has or may have committed a criminal or civil violation of law pertaining to such matters as fraud, conflict of interest, bribery, gratuity, or similar misconduct. This responsibility occurs whether the Project is subject to this Agreement or another agreement between the Recipient and FTA, or an agreement involving a principal, officer, employee, agent, or Third Party Participant of the Recipient. It also applies to subcontractors at any tier. Knowledge, as used in this paragraph, includes, but is not limited to, knowledge of a criminal or civil investigation by a Federal, state, or local law enforcement or other investigative agency, a criminal indictment or civil complaint, or probable cause that could support a criminal indictment, or any other credible information in the possession of the Recipient.

PATENT RIGHTS AND RIGHTS IN DATA

Intellectual Property Rights

This Project is funded through a Federal award with FTA for experimental, developmental, or research work purposes. As such, certain Patent Rights and Data Rights apply to all subject data first produced in the performance of this Contract. The Contractor shall grant the Agency intellectual property access and licenses deemed necessary for the work performed under this Contract and in accordance with the requirements of 37 C.F.R. part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by FTA or U.S. DOT. The terms of an intellectual property agreement and software license rights will be finalized prior to execution of this Contract and shall, at a minimum, include the following restrictions:

Except for its own internal use, the Contractor may not publish or reproduce subject data in whole or in part, or in any manner or form, nor may the Contractor authorize others to do so, without the written consent of FTA, until such time as FTA may have either released or approved the release of such data to the public. This restriction on publication, however, does not apply to any contract with an academic institution. For purposes of this Contract, the term "subject data" means recorded information whether or not copyrighted, and that is delivered or specified to be delivered as required by the Contract. Examples of "subject data" include, but are not limited to computer software, standards, specifications, engineering drawings and associated lists, process sheets, manuals, technical reports, catalog item identifications, and related information, but do not include financial reports, cost analyses, or other similar information used for performance or administration of the Contract.

1. The Federal Government reserves a royalty-free, non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use for "Federal Government Purposes," any subject data or copyright described below. For "Federal Government Purposes," means use only for the direct purposes of the Federal Government. Without the copyright owner's consent, the Federal Government may not extend its Federal license to any other party.

a. Any subject data developed under the Contract, whether or not a copyright has been obtained; and

b. Any rights of copyright purchased by the Contractor using Federal assistance in whole or in part by the FTA.

2. Unless FTA determines otherwise, the Contractor performing experimental, developmental, or research work required as part of this Contract agrees to permit FTA to make available to the public, either FTA's license in the copyright to any subject data developed in the course of the Contract, or a copy of the subject data first produced under the Contract for which a copyright has not been obtained. If the experimental, developmental, or research work, which is the subject of this Contract, is not completed for any reason whatsoever, all data developed under the Contract shall become subject data as defined herein and shall be delivered as the Federal Government may direct.

3. Unless prohibited by state law, upon request by the Federal Government, the Contractor agrees to indemnify, save, and hold harmless the Federal Government, its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the Contractor of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under that contract. The Contractor shall be required to indemnify the Federal Government for any such liability arising out of the wrongful act of any employee, official, or agents of the Federal Government.

4. Nothing contained in this clause on rights in data shall imply a license to the Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Federal Government under any patent.

5. Data developed by the Contractor and financed entirely without using Federal assistance provided by the Federal Government that has been incorporated into work required by the underlying Contract is exempt from the requirements herein, provided that the Contractor identifies those data in writing at the time of delivery of the Contract work.

6. The Contractor agrees to include these requirements in each subcontract for experimental, developmental, or research work financed in whole or in part with Federal assistance.

In addition, the contractor is required to return any retainage payments to those subcontractors within 30 days after the subcontractor's work related to this contract is satisfactorily completed.

The contractor must promptly notify the Agency, whenever a DBE subcontractor performing work related to this contract is terminated or fails to complete its work and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. The contractor may not terminate any DBE subcontractor and perform that work through its own forces or those of an affiliate without prior written consent of the Agency.

SIMPLIFIED ACQUISITION THRESHOLD

Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. § 1908, or otherwise set by law, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate. (Note that the simplified acquisition threshold determines the procurement procedures that must be employed pursuant to 2 C.F.R. §§ 200.317–200.327. The simplified acquisition threshold does not exempt a procurement from other eligibility or processes requirements that may apply. For example, Buy America's eligibility and process requirements apply to any procurement in excess of \$150,000. 49 U.S.C. § 5323(j)(13).

SAFE OPERATION OF MOTOR VEHICLES

Seat Belt Use

The Contractor is encouraged to adopt and promote on-the-job seat belt use policies and programs for its employees and other personnel that operate company-owned vehicles, company rented vehicles, or personally operated vehicles. The terms "company-owned" and "company-leased" refer to vehicles owned or leased either by the Contractor or Agency.

Distracted Driving

The Contractor agrees to adopt and enforce workplace safety policies to decrease crashes caused by distracted drivers, including policies to ban text messaging while using an electronic device supplied by an employer, and driving a vehicle the driver owns or rents, a vehicle Contractor owns, leases, or rents, or a privately-owned vehicle when on official business in connection with the work performed under this Contract.

Termination shall be effected by serving a Notice of Termination on the Contractor setting forth the manner in which the Contractor is in default. The Contractor will be paid only the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract. If it is later determined by the Agency that the Contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of the Contractor, the Agency, after setting up a new delivery of performance schedule, may allow the Contractor to continue work, or treat the termination as a Termination for Convenience.

Opportunity to Cure (General Provision)

The Agency, in its sole discretion may, in the case of a termination for breach or default, allow the Contractor [an appropriately short period of time] in which to cure the defect. In such case, the Notice of Termination will state the time period in which cure is permitted and other appropriate conditions

If Contractor fails to remedy to Agency's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within [10 days] after receipt by Contractor of written notice from Agency setting forth the nature of said breach or default, Agency shall have the right to terminate the contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to preclude Agency from also pursuing all available remedies against Contractor and its sureties for said breach or default.

Waiver of Remedies for any Breach

In the event that Agency elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this contract, such waiver by Agency

shall not limit Agency's remedies for any succeeding breach of that or of any other covenant, term, or condition of this contract.

Termination for Convenience (Professional or Transit Service Contracts)

The Agency, by written notice, may terminate this contract, in whole or in part, when it is in the Agency's interest. If this contract is terminated, the Agency shall be liable only for payment under the payment provisions of this contract for services rendered before the effective date of termination.

Termination for Default (Supplies and Service)

If the Contractor fails to deliver supplies or to perform the services within the time specified in this contract or any extension, or if the Contractor fails to comply with any other provisions of this contract, the Agency may terminate this contract for default. The Agency shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. The Contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner or performance set forth in this contract. If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Agency.

Termination for Default (Transportation Services)

If the Contractor fails to pick up the commodities or to perform the services, including delivery services, within the time specified in this contract or any extension, or if the Contractor fails to comply with any other provisions of this contract, the Agency may terminate this contract for default. The Agency shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of default. The Contractor will only be paid the contract price for services performed in accordance with the manner of performance set forth in this contract.

If this contract is terminated while the Contractor has possession of Agency goods, the Contractor shall, upon direction of the Agency, protect and preserve the goods until surrendered to the Agency or its agent. The Contractor and Agency shall agree on payment for the preservation and protection of goods. Failure to agree on an amount will be resolved under the Dispute clause.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Agency.

Termination for Default (Construction)

If the Contractor refuses or fails to prosecute the work or any separable part, with the diligence that will ensure its completion within the time specified in this contract or any extension or fails to complete the work within this time, or if the Contractor fails to comply with any other provision of this contract, Agency may terminate this contract for default. The Agency shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. In this event, the Agency may take over the work and compete it by contract or otherwise, and may take possession of and use any materials, appliances, and plant on the work site necessary for completing the work. The Contractor and its sureties shall be liable for any damage to the Agency resulting from the Contractor's refusal or failure to complete the work within specified time, whether or not the Contractor's right to proceed with the work is terminated. This liability includes any increased costs incurred by the Agency in completing the work.

The Contractor's right to proceed shall not be terminated nor shall the Contractor be charged with damages under this clause if: 1. The delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include: acts of God, acts of Agency, acts of another contractor in the performance of a contract with Agency, epidemics, quarantine restrictions, strikes, freight embargoes; and 2. The Contractor, within [10] days from the beginning of any delay, notifies Agency in writing of the causes of delay. If, in the judgment of Agency, the delay is excusable, the time for completing the work shall be extended. The judgment of Agency shall be final and conclusive for the parties, but subject to appeal under the Disputes clause(s) of this contract. 3. If, after termination of the Contractor's right to proceed, it is determined that the Contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if the termination had been issued for the convenience of Agency.

Termination for Convenience or Default (Architect and Engineering)

The Agency may terminate this contract in whole or in part, for the Agency's convenience or because of the failure of the Contractor to fulfill the contract obligations. The Agency shall terminate by delivering to the Contractor a Notice of Termination specifying the nature, extent, and effective date of the termination. Upon receipt of the notice, the Contractor shall (1) immediately discontinue all services affected (unless the notice directs otherwise), and (2) deliver to the Agency's Contracting Officer all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this contract, whether completed or in process. Agency has a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, all such data, drawings, specifications, reports, estimates, summaries, and other information and materials.

If the termination is for the convenience of the Agency, the Agency's Contracting Officer shall make an equitable adjustment in the contract price but shall allow no anticipated profit on unperformed services. If the termination is for failure of the Contractor to fulfill the contract obligations, the Agency may complete the work by contract or otherwise and the Contractor shall be liable for any additional cost incurred by the Agency. If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Agency.

Termination for Convenience or Default (Cost-Type Contracts)

The Agency may terminate this contract, or any portion of it, by serving a Notice of Termination on the Contractor. The notice shall state whether the termination is for convenience of Agency or for the default of the Contractor. If the termination is for default, the notice shall state the manner in which the Contractor has failed to perform the requirements of the contract. The Contractor shall account for any property in its possession paid for from funds received from the Agency, or property supplied to the Contractor by the Agency. If the termination is for default, the Agency may fix the fee, if the contract provides for a fee, to be paid the Contractor in proportion to the value, if any, of work performed up to the time of termination. The Contractor shall promptly submit its termination claim to the Agency and the parties shall negotiate the termination settlement to be paid the Contractor.

If the termination is for the convenience of Agency, the Contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination.

If, after serving a Notice of Termination for Default, the Agency determines that the Contractor has an excusable reason for not performing, the Agency, after setting up a new work schedule, may allow the Contractor to continue work, or treat the termination as a Termination for Convenience.

VIOLATION AND BREACH OF CONTRACT

Rights and Remedies of the Agency

The Agency shall have the following rights in the event that the Agency deems the Contractor guilty of a breach of any term under the Contract.

1. The right to take over and complete the work or any part thereof as agency for and at the expense of the Contractor, either directly or through other contractors; 2. The right to cancel this Contract as to any or all of the work yet to be performed; 3. The right to specific performance, an injunction or any

other appropriate equitable remedy; and 4. The right to money damages.

For purposes of this Contract, breach shall include.

Rights and Remedies of Contractor

Inasmuch as the Contractor can be adequately compensated by money damages for any breach of this Contract, which may be committed by the Agency, the Contractor expressly agrees that no default, act or omission of the Agency shall constitute a material breach of this Contract, entitling Contractor to cancel or rescind the Contract (unless the Agency directs Contractor to do so) or to suspend or abandon performance.

Remedies

Substantial failure of the Contractor to complete the Project in accordance with the terms of this Contract will be a default of this Contract. In the event of a default, the Agency will have all remedies in law and equity, including the right to specific performance, without further assistance, and the rights to termination or suspension as provided herein. The Contractor recognizes that in the event of a breach of this Contract by the Contractor before the Agency takes action contemplated herein, the Agency will provide the Contractor with sixty (60) days written notice that the Agency considers that such a breach has occurred and will provide the Contractor a reasonable period of time to respond and to take necessary corrective action.

Disputes

Disputes arising in the performance of this Contract that are not resolved by agreement of the parties shall be decided in writing by an authorized representative of Agency. This decision shall be final and conclusive unless within [10] days from the date of receipt of its copy, the Contractor mails or otherwise furnishes a written appeal to the Agency's authorized representative. In connection with any such appeal, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of its position. The decision of the Agency's authorized representative shall be binding upon the Contractor and the Contractor shall abide by the decision.

In the event that a resolution of the dispute is not mutually agreed upon, the parties can agree to mediate the dispute or proceed with litigation. Notwithstanding any provision of this section, or any other provision of this Contract, it is expressly agreed and understood that any court proceeding arising out of a dispute under the Contract shall be heard by a Court de novo and the court shall not be limited in such proceeding to the issue of whether the Authority acted in an arbitrary, capricious or grossly erroneous manner.

Pending final settlement of any dispute, the parties shall proceed diligently with the performance of the Contract, and in accordance with the Agency's direction or decisions made thereof.

Performance during Dispute

Unless otherwise directed by Agency, Contractor shall continue performance under this Contract while matters in dispute are being resolved.

Claims for Damages

Should either party to the Contract suffer injury or damage to person or property because of any act or omission of the party or of any of its employees, agents or others for whose acts it is legally liable, a claim for damages therefor shall be made in writing to such other party within a reasonable time after the first observance of such injury or damage.

Remedies

Unless this Contract provides otherwise, all claims, counterclaims, disputes and other matters in question between the Agency and the Contractor arising out of or relating to this Contract or its breach will be decided by arbitration if the parties mutually agree, or in a court of competent jurisdiction within the State in which the Agency is located.

Rights and Remedies

The duties and obligations imposed by the Contract documents and the rights and remedies available thereunder shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law. No action or failure to act by the Agency or Contractor shall constitute a waiver of any right or duty afforded any of them under the Contract, nor shall any such action or failure to act constitute an approval of or acquiescence in any breach thereunder, except as may be specifically agreed in writing.
